Pela Clear case for Phone 12 mini - Blue

Protect your iPhone 12 mini with a clear case designed to reduce plastic waste without compromising everyday protection. Made with compostable plant-based materials, the Pela Clear case combines a rigid transparent back with shock-absorbing edges to help guard against drops, impacts and scratches.

- Compostable plant-based materials
- Clear rigid back with shock-absorbing edges
- Designed for iPhone 12 mini
- Everyday protection against drops and scratches
- Supports ocean cleanup and environmental initiatives

Compostable plant-based materials
The Pela Clear case is made using a 100% compostable bio-polymer combined with flax shive plant fibres. Unlike conventional plastic cases that can remain in landfill for hundreds of years, this case is designed with more responsible materials that support a lower-waste future.

Clear rigid back with shock-absorbing edges
The case features a transparent rigid back that lets the design of your iPhone 12 mini show through, while the coloured Flaxstic bumper provides a soft feel with a secure grip. The shock-absorbing edges help protect your phone from everyday impacts.

Designed for iPhone 12 mini
Precision cutouts give easy access to the speakers, charging port, volume buttons and power button. The case is carefully shaped to fit the iPhone 12 mini without adding unnecessary bulk.

Everyday protection against drops and scratches
Pela Clear is designed to protect your phone from drops, scratches and daily wear. The wraparound edges help protect the front of your phone, while the impact-absorbent bumper adds extra protection where it matters most.

Supports ocean cleanup and environmental initiatives
Pela donates a percentage of every sale to ocean cleanup and preservation initiatives. The brand is also a member of 1% for the Planet, supporting organisations working to protect the environment.
