

Twelve South Journal for iPhone XS Max is a luxury leather wallet folio case that wraps your iPhone in full-grain leather, protects it from everyday bumps and drops, and replaces your wallet with space for cards, ID, and cash. With an integrated hands-free stand and a refined, timeless design, it is crafted to look better the longer you use it.

- Premium full-grain leather inside and out
- Integrated wallet with ID window and cash pocket
- Built-in hands-free viewing stand
- Protective folio design for everyday drops and bumps
- Ages beautifully like a fine pair of leather shoes

Premium full-grain leather inside and out

Journal is crafted entirely from full-grain leather, not just a plastic case wrapped in a thin leather layer. Both the exterior and interior are lined with rich, hardwearing leather, offering a warm, premium feel every time you pick up your phone. Carefully stitched details and expert tanning make this case feel like a piece of fine leather goods rather than a simple phone accessory.

Integrated wallet with ID window and cash pocket

Leave your traditional wallet at home. Inside Journal you will find three dedicated card slots, a transparent ID window, and a full-length pocket for folded cash or receipts. Your most important daily essentials travel with your iPhone XS Max in one slim, organized folio, keeping your pockets and bag clutter-free.

Built-in hands-free viewing stand

The folio cover folds back into a stable horizontal stand, perfect for watching videos, taking video calls, or following a recipe without having to hold your phone. Whether you are on a flight, at a café, or at home on the sofa, the integrated stand gives you comfortable, hands-free viewing whenever you need it.

Protective folio design for everyday drops and bumps

A composite inner shell cradles your iPhone XS Max, helping to protect it from everyday drops, bumps, and scratches. The folio front cover adds an extra layer of protection for your screen when closed and can also act as a privacy shield from prying eyes or bright sunlight when you are using your phone.

Ages beautifully like a fine pair of leather shoes

Journal is designed to develop a unique patina over time, just like your favorite leather shoes or bag. The more you carry and use it, the more character the leather gains. Instead of wearing out, this case wears in, becoming more personal and visually distinctive with every day of use.
