

Twelve South SurfacePad for iPhone 12 Mini – Ultra-slim MagSafe leather wallet cover for iPhone 12 Mini - Plum Plum

SurfacePad for iPhone 12 Mini from Twelve South is the ultra-slim, leather wallet cover designed for people who love the feel and look of their iPhone, but still want everyday protection and card-carrying convenience. Feather-light, MagSafe compatible and crafted from soft Napa leather, it keeps your essentials in one sleek, pocket-friendly cover without hiding your iPhone in a bulky case.

- Ultra-slim front-and-back leather cover for everyday protection
- Fully MagSafe compatible, even with cards inside
- Integrated wallet with two interior card slots
- Minimalist design that is easy to remove and reapply
- SurfaceGrip 2.0 adhesive leaves no residue when removed

Ultra-slim front-and-back leather cover for everyday protection

SurfacePad for iPhone 12 Mini is designed for those who want just enough protection without the bulk. This razor-thin, feather-light cover wraps the front and back of your iPhone to shield it from everyday hazards like keys, coins and rough tabletops. Crafted from luxuriously soft Napa leather, it adds a refined, tactile feel to your phone while maintaining its slim profile. Your iPhone still slips easily into pockets, small bags and tight phone compartments, making SurfacePad ideal for daily carry.

Fully MagSafe compatible, even with cards inside

Unlike many folio-style covers, SurfacePad is designed to work seamlessly with MagSafe. You can leave the cover on, keep your cards inside, and still attach your MagSafe Charger or MagSafe accessories. No need to remove your wallet cover just to power up. This thoughtful design means your iPhone 12 Mini stays protected, your cards stay secure, and you still enjoy the full MagSafe experience.

Integrated wallet with two interior card slots

SurfacePad turns your iPhone 12 Mini into a minimalist wallet you can take anywhere. Inside the front cover you will find two discreet card slots, perfect for your ID and a primary bank or credit card. With contactless payments like Apple Pay available almost everywhere, you can often leave your traditional wallet at home. Just grab your iPhone, a key, and you are ready to go. Because your cards remain inside the cover, there is less risk of misplacing them compared to detachable wallets.

Minimalist design that is easy to remove and reapply

This is not a rugged, do-everything case. SurfacePad is intentionally minimal for those times when a slim, stylish layer of protection is all you need. Heading out on a weekend adventure that calls for a heavy-duty case? Simply peel SurfacePad off before you go, then reapply it when you are back to everyday life. The ultra-thin design keeps your iPhone comfortable to hold and use, while the front cover easily flips open for calls, photos, and apps. A precise camera cutout ensures you can capture photos and videos without interference.

SurfaceGrip 2.0 adhesive leaves no residue when removed

SurfacePad attaches to your iPhone 12 Mini with Twelve South's SurfaceGrip 2.0, a super-secure yet reusable adhesive. If you do not get it perfectly straight on the first try, you can gently peel it off and reposition it. Need to switch to a waterproof or rugged case for travel? Remove SurfacePad, store it safely, and reapply it later. SurfaceGrip 2.0 is engineered to leave no sticky residue on your phone, so your device stays in great condition, which is especially helpful when it is time for resale or trade-in.

Package includes

- Twelve South SurfacePad for iPhone 12 Mini - Plum
