Ultra-thin genuine leather folio for iPhone XS Max
SurfacePad wraps your iPhone XS Max in genuine leather for an elegant look and a soft feel. Its ultra-thin design adds minimal bulk, keeping your phone comfortable to hold and easy to slip into a pocket or bag.

Built-in stand for hands-free viewing and FaceTime
Flex the back of SurfacePad to create a stand that holds your iPhone XS Max in landscape orientation. Watch videos, stream your favourite shows or make FaceTime calls hands-free, with no separate stand to carry or attach.

Two interior slots for essential cards
Two discreet slots inside the front cover hold essentials such as an ID and a bank card, keeping them protected and within easy reach. Together with Apple Pay, they can help you leave your wallet at home.

Lightweight protection for the front and back
Lightweight and as thin as a credit card, SurfacePad helps protect your iPhone from everyday scratches. When closed, the leather cover helps shield the screen from contact with keys and surfaces, while the back panel protects the rear glass from scratches and scuffs.

Residue-free adhesive and automatic wake and sleep
SurfacePad attaches securely to the back of your iPhone XS Max, staying in place during daily use and lifting away cleanly without sticky residue when removed. Opening the cover automatically wakes your iPhone; closing it puts the phone to sleep, helping to conserve battery life.
