Twelve South SurfacePad for iPhone 12 Pro Max - Cognac

SurfacePad from Twelve South is an ultra-slim leather folio for iPhone 12 Pro Max. Made from soft Napa leather, it protects the front and back from everyday scratches, holds two cards and is fully compatible with MagSafe charging and accessories.

- Ultra-slim leather folio for protection without bulk
- Fully compatible with MagSafe, even with cards inside
- Built-in wallet for two essential cards
- Lightweight everyday protection that slips easily into a pocket
- Secure, reusable adhesive that leaves no residue

Ultra-slim leather folio for protection without bulk
SurfacePad covers the front and back of your iPhone 12 Pro Max in soft Napa leather to protect against scratches, scuffs and everyday wear. Its thin, lightweight design keeps your phone feeling slim in your hand and easy to slip into a pocket or bag.

Fully compatible with MagSafe, even with cards inside
Use MagSafe charging and accessories without removing SurfacePad or your cards. The card slots sit inside the front cover, away from the MagSafe connection on the back of your iPhone.

Built-in wallet for two essential cards
Two precision-cut slots inside the front cover keep essentials such as an ID and a payment card covered and close at hand. Paired with Apple Pay or other contactless payment options, they let you carry the cards you need without a separate wallet.

Lightweight everyday protection that slips easily into a pocket
SurfacePad adds a slim protective layer against everyday contact with keys, coins and rough tabletops, as well as drips and water rings at a café. It is designed for everyday scratch and scuff protection, not rugged use. For activities that call for heavy-duty protection, such as hiking or a beach trip, you can peel it off, use another case and reapply SurfacePad afterwards.

Secure, reusable adhesive that leaves no residue
Twelve South's SurfaceGrip 2.0 reusable adhesive holds SurfacePad securely on your iPhone 12 Pro Max. You can peel it off to reposition it or temporarily remove it to use another case. The adhesive is designed to leave no sticky residue on your iPhone.
