UAG Workflow Flex for Samsung Xcover 6/7 Pro (bulk) - Black

Built for demanding work environments and everyday use, this slim protective case combines strong drop protection with a secure magnetic attachment system. The flat, MagSafe-compatible back lets you mount the device to metal surfaces, while the included hand strap improves handling on the move.

- Slim, lightweight co-mold protection for enterprise and everyday use
- Secure magnetic attachment system for reliable accessory connection
- Flat magnetic back with MagSafe compatibility for mounting and charging compatibility
- Detachable hand strap for flexible, comfortable carrying
- Optional 5000 mAh slim battery pack support with charging contacts for dock charging

Slim, lightweight co-mold protection for enterprise and everyday use
Designed for sectors like logistics, transportation, and government, the co-mold construction helps protect your phone without adding unnecessary bulk. It’s built to stay practical for long shifts, frequent handling, and daily carry.

Secure magnetic attachment system for reliable accessory connection
A secure attach mechanism works together with the case magnets to create a strong, stable connection for accessories. This helps keep add-ons firmly attached in active, work-driven environments where reliability matters.

Flat magnetic back with MagSafe compatibility for mounting and charging compatibility
The completely flat back allows the case to magnetically attach to metal surfaces, giving you simple, hands-free placement when needed. MagSafe compatibility also supports convenient alignment with compatible magnetic accessories.

Detachable hand strap for flexible, comfortable carrying
An included hand strap improves grip and reduces the chance of drops during one-handed use. It’s detachable and can be positioned vertically or diagonally to match how you work and carry your device.

Optional 5000 mAh slim battery pack support with charging contacts for dock charging
When extended runtime is needed, the case supports an optional slim 5000 mAh battery pack that attaches only when required. Charging contacts enable dock charging, helping streamline charging workflows in shared or fleet setups.

Package includes

- 1x UAG Workflow Flex for Samsung Xcover Pro 7 - Black
- 1x Detachable hand strap
