usbepower

Usbepower Rock Dual Adapter Charger USB 2.1A - Blue

The Usbepower Rock dual USB wall charger with smart power distribution and two USB ports for iPhone, iPad and Android keeps two devices charging from a single outlet. Its compact design, built-in device support and SGS-certified protection make it a practical choice for home, the office and travel.

- Charge two devices at once
- Smart power distribution
- Compact design for travel
- Built-in wall dock
- SGS-certified charging protection

Charge two devices at once
Keep your phone and tablet charging together without needing a second adapter. Two USB ports provide up to 2.1 A of shared output for compatible iPhone, iPad, Android and other USB-powered devices.

Smart power distribution
Connect your devices and let the charger manage the available power. The internal chipset detects connected devices and distributes power between the two ports for stable, consistent charging.

Compact design for travel
Carry one charger for two devices. The pocket-sized design fits easily into your everyday bag or travel kit, while the 100 to 240 V input supports use with different mains voltages. A suitable plug adapter may be needed depending on your destination.

Built-in wall dock
Use the charger as a convenient support for your device while it charges. When plugged into a suitable wall outlet, the docking design helps keep your device off nearby surfaces and close to its power source.

SGS-certified charging protection
Charge with confidence using SGS-certified protection designed to help guard against issues such as overvoltage. The power management system and quality components support safe everyday charging with compatible devices.

Package includes

- 1 x Usbepower Rock Dual USB 2.1 A Wall Charger in Blue

Product specifications
