

Mujjo Full Leather Case with MagSafe and Metal Buttons for iPhone 14 Pro - Monaco Blue

Crafted from premium vegetable-tanned Ecco leather and finished with machined metal details, this Mujjo Full Leather Case is designed to protect your iPhone 14 Pro in style. Ultra-slim yet highly protective, it combines everyday durability, MagSafe compatibility, and a refined tactile feel that only gets better with time.

- Premium Ecco leather that ages beautifully
- Built-in MagSafe for fast wireless charging
- Enhanced protection for screen and camera
- Machined metal buttons for precise responsiveness
- Luxurious Japanese microfibre interior lining

Premium Ecco leather that ages beautifully

Mujjo uses highly acclaimed vegetable-tanned Ecco leather from the Netherlands, chosen for both its durability and refined appearance. This leather is Gold Rated by the Leather Working Group for its environmental standards, reflecting a more responsible tanning process. Over time, the leather develops a rich patina that makes every case unique, giving your iPhone 14 Pro a character and depth of color that improves with use.

Built-in MagSafe for fast wireless charging

Magnetic technology is seamlessly integrated into the case to support MagSafe. This ensures fast, efficient wireless charging while keeping your iPhone 14 Pro securely aligned on MagSafe chargers. The built-in magnets also make the case fully compatible with MagSafe accessories such as wallets, stands, and mounts, so you can expand your setup without compromising on protection or style.

Enhanced protection for screen and camera

Despite its slim profile, this case is engineered for everyday protection. A raised leather bezel of approximately 1 millimetre surrounds the front edge, helping to keep abrasive surfaces away from your screen when you place the phone face down. On the back, a raised camera bump shields the protruding lenses from scratches and impact. The base of the device is neatly covered to add extra protection while leaving the speakers and charging port unobstructed.

Machined metal buttons for precise responsiveness

The side buttons are made from precisely machined metal to deliver a satisfying, tactile click with every press. These buttons are carefully dyed to match the leather color, preserving Mujjo's minimalist aesthetic while enhancing usability. The result is a case that not only looks refined but also feels responsive and intuitive in everyday use.

Luxurious Japanese microfibre interior lining

Inside, the case is lined with premium Japanese microfibre: a slim, super-strong, and exceptionally lightweight fabric. With its satin-like finish, this lining provides a soft, padded layer between your iPhone 14 Pro and the leather exterior. It helps protect the back and sides of your device from micro-scratches, ensuring your phone remains in excellent condition over time.

Package includes

- Mujjo Full Leather Case with MagSafe and Metal Buttons for iPhone 14 Pro - Monaco Blue
