Vegetable-tanned leather finish
Made from vegetable-tanned leather sourced from the Netherlands, the case offers a rich texture and the sustainability benefits of vegetable tanning. The leather develops a unique patina over time, giving each case its own character. The black finish and minimalist design complement the contours of your iPhone 14 Pro Max.

Integrated pocket for two to three cards
The built-in leather pocket comfortably holds two to three bank, ID or travel cards, keeping everyday essentials together without the bulk of a separate wallet.

Precision-machined metal buttons for a responsive feel
The durable, precision-machined metal side buttons provide a tactile, responsive feel. Coloured to match the leather, they blend into the case design.

Raised edges to help protect the screen and camera
A 1 mm raised bezel helps keep your iPhone's screen away from abrasive surfaces. A raised edge around the rear camera also helps protect the lenses from everyday wear and damage.

Soft Japanese microfiber lining for added protection
The soft Japanese microfiber lining has a satin-like finish. This durable fabric adds a layer of protection for your iPhone while maintaining the case's slim, lightweight design.
