Mujjo Leather Case for iPhone 16 with MagSafe and Metal Buttons - Black

Mujjo's Leather Case for iPhone 16 in Black combines premium European leather with recycled materials in a minimalist design. Durable leather, responsive metal buttons and a soft microfibre lining provide practical protection with a refined finish.

- Premium European leather
- Machined metal buttons
- Machined metal camera bump
- Japanese microfibre lining
- MagSafe compatible
- B Corp certification

Premium European leather
Crafted from northern European hides, the durable leather is tanned in the Netherlands using the DriTan process, which reduces water waste and chemical use. Over time, it develops a distinctive patina that adds character to your case.

Machined metal buttons
The machined metal side buttons offer a responsive, satisfying click and are coloured to match the Black leather. Cases for iPhone 16 models include a mute button and a one-piece volume button.

Machined metal camera bump
A machined recycled aluminium camera bump protects the rear camera lenses and adds durability. Aluminium offers robust protection against bumps and scratches that can damage leather.

Japanese microfibre lining
The premium Japanese microfibre lining is made from a slim, soft and lightweight recycled fabric with a satin-like finish. It provides padded protection for your iPhone 16.

MagSafe compatible
Built-in magnets support fast wireless charging and compatibility with all MagSafe accessories.

More recycled materials
As a certified B Corp, Mujjo continues to work towards greater sustainability. The case uses recycled materials in its metal buttons, camera bump, microfibre lining and the polycarbonate shell beneath the leather.

Package includes
