Mujjo Leather Case for iPhone 16 with MagSafe and Metal Buttons - Tan

Mujjo's Leather Case for iPhone 16 in Tan combines premium European leather with recycled materials in a durable, minimalist design. Responsive metal buttons, a protective camera surround and a soft microfibre lining offer everyday protection with a refined finish.

- Premium European leather
- Machined metal buttons
- Machined metal camera surround
- Japanese microfibre lining
- MagSafe compatible
- B Corp certification

Premium European leather
Made from northern European hides, the leather is tanned in the Netherlands using the DriTan process, which reduces water waste and chemical use. The durable leather develops a distinctive patina over time, adding character to your case.

Machined metal buttons
The machined metal side buttons provide a responsive, satisfying click and are coloured to match the Tan leather, complementing the case's minimalist design. Cases for iPhone 16 models include a mute button and a one-piece volume button.

Machined metal camera surround
A machined recycled aluminium camera surround protects the rear camera lenses against bumps and scratches, adding durability where leather is more susceptible to damage.

Japanese microfibre lining
The interior is lined with premium Japanese microfibre. This thin, lightweight recycled fabric has a soft, satin-like finish that gently cushions and protects your iPhone.

MagSafe compatible
Built-in magnets support fast wireless charging and compatibility with all MagSafe accessories.

A focus on sustainability
Mujjo's B Corp certification reflects its commitment to improving sustainability. These iPhone cases use recycled materials in the metal buttons, camera surround, microfibre lining and polycarbonate shell beneath the leather.

Package includes
