Mujjo Leather Case for iPhone 16e with MagSafe and Metal Buttons - Black

Mujjo's Leather Case for iPhone 16e in Black combines premium European leather with recycled materials in a protective, minimalist design. Durable leather, responsive metal buttons and a soft microfibre lining bring refined details to everyday use.

- Premium European leather
- Machined metal buttons
- Machined metal camera bump
- Japanese microfibre lining
- MagSafe compatible
- B Corp certification

Premium European leather
Made from northern European hides, the leather is tanned in the Netherlands using the DriTan process, which reduces water waste and chemical use. Durable and designed to age naturally, it develops a unique patina over time, adding character to your case.

Machined metal buttons
The machined metal side buttons offer responsive control with a satisfying click. Finished to match the leather, they complement the case's minimalist design. The case includes a mute button and a one-piece volume button.

Machined metal camera bump
A machined recycled aluminium camera bump protects the rear camera lenses and adds durability. It offers robust protection against bumps and scratches in an area where leather is more susceptible to damage.

Japanese microfibre lining
The interior is lined with premium Japanese microfibre. This thin, lightweight recycled fabric has a soft, satin-like finish that cushions and protects your iPhone 16e.

MagSafe compatible
Built-in magnetic technology supports fast wireless charging and compatibility with all MagSafe accessories.

Designed with sustainability in mind
Mujjo is B Corp certified and continues to work towards greater sustainability. The case uses recycled materials in its metal buttons, camera bump, microfibre lining and the polycarbonate shell beneath the leather.

Package includes
