

Turn your iPhone 14 Pro into a refined everyday wallet with Mujjo's Leather Wallet Case. Crafted from premium vegetable-tanned leather with a built-in card holder and machined metal buttons, this ultra-slim case delivers sophisticated style, convenient card storage, and dependable protection in one beautifully designed package.

- Turns your iPhone into a slim everyday wallet
- Premium Ecco leather that develops a rich patina over time
- Machined metal buttons for extra-clicky, responsive controls
- Protective design with raised bezels for screen and camera
- Japanese microfibre lining for soft, lightweight cushioning

Turns your iPhone into a slim everyday wallet

Replace your traditional wallet with a case that carries your essentials. The integrated leather card pocket on the back securely holds 2 to 3 bank, ID, or travel cards, keeping everything you need in one sleek package. With your most important cards always within easy reach, you can travel lighter while maintaining a clean, minimal silhouette in your pocket or bag.

Premium Ecco leather that develops a rich patina over time

The case is wrapped in premium vegetable-tanned Ecco leather from the Netherlands, chosen for its durability, luxurious feel, and ability to age beautifully. Over time, the leather develops a rich patina that reflects your daily use, making each case uniquely yours. Rated Gold by the Leather Working Group for environmental standards, this leather combines responsible production with refined style.

Machined metal buttons for extra-clicky, responsive controls

Thoughtfully engineered machined metal buttons provide crisp, tactile feedback every time you press them. These buttons are precisely fitted to align with your iPhone 14 Pro's controls and are dyed to match the leather for a cohesive, minimalist aesthetic. The result is an enhanced user experience that not only feels better but looks more refined.

Protective design with raised bezels for screen and camera

Despite its slim profile, the case is built to protect your iPhone 14 Pro from everyday knocks, bumps, and scratches. A 1 mm raised leather bezel around the display helps keep abrasive surfaces away from the screen when you place your phone face down. On the back, a raised camera bump shields the protruding lenses, while the base of the device is neatly covered for extra protection without blocking the speakers or charging port.

Japanese microfibre lining for soft, lightweight cushioning

Inside, your iPhone 14 Pro is cradled by an exceptionally fine Japanese microfibre lining. This ultra-soft, super-strong, and lightweight fabric has a satin-like finish that cushions the device and helps prevent scratches. The snug, padded interior complements the outer leather shell to deliver a secure, premium protective experience from all sides.

Package includes

- Mujjo Leather Wallet Case for iPhone 14 Pro - Black
