Premium European leather
Made from northern European hides using an environmentally friendly tanning process, the durable, gold-rated leather develops a distinctive patina over time.

Machined aluminium camera protection
The camera bump is machined from recycled aluminium and matches the leather and buttons in colour. It helps protect the rear camera lenses against bumps and scratches.

Responsive machined metal buttons
The side buttons are crafted from premium metal for a responsive feel. Colour-matched to the leather, they complement the iPhone 15 Pro Max design.

More recycled materials
Mujjo is a B Corp-certified brand and has increased the use of recycled materials in its iPhone 15 Pro Max case. Recycled materials are used in the metal buttons, camera bump, microfibre lining and polycarbonate shell.

MagSafe compatibility
Built-in magnets ensure compatibility with MagSafe accessories for convenient wireless charging.
