

Innovation meets your wallet. Experience the ultimate combination of engineering elegance and rugged protection with the Mujjo Leather Wallet Case for iPhone 17 Pro Max-Tan. Made from revolutionary Velore leather with DriTan™ waterproof technology and designed with meticulous attention to detail, this case not only protects your device, but also elevates every interaction with it.

Turn your iPhone into your wallet

Velore leather made with DriTan™ waterless technology

Enhanced portability with precision-machined metal camera ring

Premium leather ages beautifully with a unique patina

Japanese microfiber lining for luxurious comfort

Strongest MagSafe magnet in any case for smooth wireless charging

Responsive Camera Control Button support

Even more durable - B Corp certification

Turn your iPhone into your wallet

Transform your iPhone 17 Pro Max into a sleek wallet with the Mujjo Leather Case. With room for 2 to 3 bank cards, IDs or travel cards, it reduces the need to carry a separate wallet and provides a stylish and convenient solution for life on the go.

Velore leather made with DriTan™ waterless technology

Experience innovation you can feel. Our Velore leather is made from fine-grained Danish calfskin using the groundbreaking DriTan™ waterless technology, providing a uniquely soft feel that is both durable and luxurious. This breakthrough process reduces environmental impact while delivering superior quality.

Enhanced durability with precision-machined metal camera ring

Mujjo Wallet Leather Case helps secure your iPhone's rear camera lenses. The precision-machined camera ring, made from recycled aluminum, not only enhances protection but also contributes to the overall durability of the case, protecting one of the device's most vulnerable parts.

Premium leather ages beautifully with a unique patina

Made from Velore leather, sustainably tanned in the Netherlands, the Mujjo Wallet Leather Case offers a rich and luxurious feel that gets better with time. The fine-grained Danish calfskin develops a distinctive patina that deepens with age, giving your case more personality and a more personal touch.

Japanese microfiber lining for luxurious comfort

Inside the case, your iPhone is enveloped in silky-soft Japanese microfiber - a slim, super-soft and lightweight material. With its refined finish, this recycled material provides extra cushioned comfort and helps your iPhone stay in top condition, with an inside that's as sophisticated as the outside.

Responsive Camera Control Button Support

Fully supports the new Camera Control with a pressure-sensitive button that can be pressed, providing a familiar, responsive feel and enhanced functionality for your photography needs.
