

Armour for your new iPhone 16 Pro. Experience unrivaled protection and refined aesthetics with the Mujjo Shield Case for iPhone 16 Pro. This case blends innovation in both design and function, offering exceptional impact resistance and a luxurious feel. Made from European leather and reinforced with Mujjo's proprietary ImpactCore internal bumper, it ensures your iPhone is not only secure but also stylish.

- Velore Leather
- Outstanding impact resistance up to 5m
- MIL-STD-810 certification
- Machined-metal buttons for optimal responsiveness
- Machined-metal camera bump for enhanced protection
- Japanese microfibre lining
- Strongest magnet possible in case
- Even more sustainable

Premium Leather

It all starts with Velore leather. Sustainably tanned in the Netherlands, it ages beautifully and feels great to hold. Our planet-friendly ethos also means we use recycled materials for the hardware, inner shell and lining.

Outstanding impact resistance

Our Shield Case is designed with Mujjo's unique ImpactCore internal bumper, providing drop protection rated to 5 metres/15 feet. The case's ultra-thin profile does not compromise its durability, making it a reliable shield against unexpected falls and bumps. Crafted with vegetable-tanned leather, it offers a secure grip for your peace of mind. Certified to Military Grade MIL-STD-810

Machined-metal buttons for optimal responsiveness

The side buttons are meticulously crafted from machined metal, delivering a super-satisfying clickiness that enhances your interaction with your iPhone 16 Pro. These buttons are dyed to match the Black leather, adhering to our minimalist aesthetic. Additionally, the Pro model features a one-piece volume button and includes a precisely designed mute button.

Machined-metal camera bump for enhanced protection

To safeguard your rear camera lenses, the Shield Case includes a camera bump made from recycled aluminum. This machined piece of hardware adds durability to an area often prone to damage, ensuring your camera remains pristine. It seamlessly integrates with the case's design, providing a stylish yet functional enhancement.

Japanese microfibre lining

The interior of the Mujjo Shield Case is lined with Japanese microfibre, a super-soft, recycled fabric known for its lightweight and satin-like finish. This luxurious padding not only protects your iPhone 16 Pro but also adds a touch of elegance, ensuring your device remains scratch-free and comfortable to hold.

MagSafe compatible

Built-in magnetic technology ensures your Shield Case is fully compatible with MagSafe accessories and wireless charging. Whether you're attaching your phone to a stand or using MagSafe chargers, the enhanced magnet strength assures a secure connection every time.
