Mujjo Shield Velore Leather Case for iPhone 16 Pro with MagSafe - Steel blue

Protect your iPhone 16 Pro with the Mujjo Shield Case, combining European leather with Mujjo's proprietary ImpactCore internal bumper. Its slim design offers drop protection and a refined leather finish that feels comfortable in your hand.

- Velore leather
- Drop protection up to 5 m
- MIL-STD-810 certification
- Machined metal buttons for responsive control
- Machined metal camera bump for added protection
- Japanese microfibre lining
- Strong built-in magnets
- Recycled materials and sustainably tanned leather

Premium leather
Velore leather is sustainably tanned in the Netherlands, ages beautifully and feels comfortable to hold. Recycled materials are used in the hardware, inner shell and lining.

Drop protection up to 5 m
Mujjo's ImpactCore internal bumper provides drop protection rated to 5 metres/15 feet in a slim case. The vegetable-tanned leather offers a secure grip, while MIL-STD-810 certification supports the case's impact protection credentials.

Machined metal buttons for responsive control
The machined metal side buttons provide a satisfying, responsive click and are colour-matched to the steel blue leather for a clean, understated look. The Pro model also features a one-piece volume button and a precisely designed mute button.

Machined metal camera bump for added protection
A machined camera bump made from recycled aluminium helps protect the rear camera lenses. It adds durability around the camera while integrating neatly with the case design.

Japanese microfibre lining
The case is lined with soft, lightweight Japanese microfibre made from recycled fabric. Its satin-like finish cushions your iPhone 16 Pro and helps protect it from scratches.

MagSafe compatible
Built-in magnets make the Shield Case fully compatible with MagSafe accessories and wireless charging. Enhanced magnetic strength helps keep your phone securely connected to compatible stands and MagSafe chargers.
