Mujjo Slim European Leather MagSafe Case for iPhone 16 Pro Max - Black

Mujjo's Leather Case for iPhone 16 Pro Max in Black combines premium European leather with recycled materials in a minimalist design. It offers durable protection, responsive metal buttons and MagSafe compatibility for everyday use.

- Premium European leather
- Machined metal buttons
- Machined metal camera bump
- Japanese microfibre lining
- MagSafe compatible
- B Corp certification

Premium European leather
Crafted from northern European hides, the leather is tanned in the Netherlands using the DriTan process, which reduces water waste and chemical use. Durable and made with a focus on sustainability, it develops a unique patina over time, adding character to your case.

Machined metal buttons
The machined metal side buttons offer responsive operation and a satisfying click. Dyed to match the black leather, they complement the case's minimalist design. The iPhone 16 Pro Max case includes a mute button and a one-piece volume button.

Machined metal camera bump
A machined recycled aluminium camera bump protects the rear camera lenses and adds durability to the case. It provides robust protection against bumps and scratches in an area where leather is more vulnerable to damage.

Japanese microfibre lining
The interior is lined with premium Japanese microfibre. This slim, lightweight recycled fabric is exceptionally soft, with a satin-like finish that provides padded protection for your iPhone 16 Pro Max.

MagSafe compatible
Built-in magnetic technology supports fast wireless charging and compatibility with all MagSafe accessories, while preserving the case's minimalist appearance.

A focus on sustainability
As a B Corp-certified brand, Mujjo continues to work towards greater sustainability. These iPhone cases use recycled materials in the metal buttons, camera bump, microfibre lining and polycarbonate shell beneath the leather.
