myFirst 3D Pen for Creativity and Unique Artwork - Red

Introducing the myFirst 3D Pen for Creativity and Unique Artwork. Unleash the artistic potential of your child with this vibrant tool, designed to transform simple drawings into three-dimensional masterpieces. Perfect for young artists aged 5 to 13, this safe, easy-to-use, and wireless pen inspires imagination and fosters creativity.

- Safe to Touch
- Rapid Solidification
- Operate Wirelessly
- Let Creativity Soar
- Kid-Friendly Engineering

Safe to Touch
The myFirst 3D Pen prioritizes safety with its innovative design that keeps the heat contained inside. Crafted from kid-friendly PCL materials, the filaments are entirely safe for children to handle, ensuring a fun and worry-free creative experience.

Rapid Solidification
Our 3D pen uses specially formulated low-heat filament that solidifies quickly, reducing messes and making cleanup easy. This feature ensures hassle-free creativity by eliminating sticky residues.

Operate Wirelessly
Freedom of creativity is at your child's fingertips with the built-in rechargeable battery of the myFirst 3D Pen. It charges via USB, eliminating clutter from wires and allowing for convenient and effortless expression.

Let Creativity Soar
Encourage your child to explore art and craft, turning imagination into reality. Whether creating unique designs or building detailed models, the myFirst 3D Pen opens a world of endless possibilities.

Kid-Friendly Engineering
Lightweight and ergonomically designed for easy grip by small hands, this 3D pen is an ideal tool for young artists to experiment with three-dimensional creativity safely.

Package includes
