myFirst Camera Insta Thermal Paper - White

Make every snap a keepsake. With premium thermal paper designed for the myFirst Camera Insta series, kids can print sharp, clear photos in seconds. Easy to load, smooth to the touch, and sized just right, it turns everyday moments into instant mini masterpieces.

- Sharp, dark image density for clear prints
- Smooth paper surface for clean results
- Free end roll for quick, easy loading
- Long rolls: 6 m each, up to 60 sheets per roll
- Designed for myFirst Camera Insta series

Sharp, dark image density for clear prints
Capture and keep the moment as you saw it. The premium thermal coating delivers high-contrast, crisp results so faces, details, and doodles look bold and readable every time.

Smooth paper surface for clean results
A refined, even surface helps the paper glide through the printer for consistent output with fewer imperfections, so kids get neat, satisfying prints they love to share.

Free end roll for quick, easy loading
No fumbling or frustration. The free-end roll design makes swapping in a new roll fast and simple, keeping the fun going with minimal downtime.

Long rolls: 6 m each, up to 60 sheets per roll
Print more memories per roll. Each 6-meter roll yields up to 60 sheets, giving plenty of room for photos, crafts, labels, and learning projects before it is time to replace.

Designed for myFirst Camera Insta series
Sized and tested for a perfect fit with the myFirst Camera Insta family, including Camera Insta 2, Camera Insta Wi, and Camera Insta 20, for reliable printing every time.

Package includes

- 3 rolls of thermal paper
