myFirst Sketch Clear 16 Drawing Board - Pink

Bring your drawings to light with a transparent, reusable acrylic board. Draw with fluorescent markers and watch the edge-lit LEDs make your lines glow. Trace pictures, add creative touches over photos or draw freehand, then wipe the panel clean when you're ready to start again.

- Draw, wipe clean and create again
- Trace pictures through the clear panel
- Personalise your art with colour and light
- Adjust settings with simple touch controls
- Display your creations with a built-in stand

Draw, wipe clean and create again
Enjoy a reusable space for sketches, messages and colourful ideas. The acrylic panel works with fluorescent markers to create glowing lines, then wipes clean so you can move on to your next drawing.

Trace pictures through the clear panel
Place a picture beneath the transparent board and trace its outlines. You can also draw over photos to add your own designs without marking the original, giving you more ways to explore your creativity.

Personalise your art with colour and light
Choose from eight static light colours or bring movement to your artwork with Jump, Breathing and Running modes. Six adjustable brightness levels let you set the lighting to suit your drawing and surroundings.

Adjust settings with simple touch controls
Change your lighting settings using the touch controls, then activate the key lock to prevent accidental changes. A battery percentage display makes it easy to see how much charge remains.

Display your creations with a built-in stand
Use the built-in stand to keep your finished artwork on display. The rechargeable battery provides approximately 10 to 15 hours of use, so you can draw and display without staying connected to power. USB Type-C charging takes approximately 2.5 to 3 hours.

Package includes

- myFirst Sketch Clear 16 Drawing Board with built-in stand - Pink

Product specifications

- Brand: myFirst
- Product: Sketch Clear 16 Drawing Board
- SKU: FS1603SA-PK01
- Colour: Pink
- Materials: ABS base and acrylic panel
- Acrylic board dimensions: 350 × 230 mm
- Overall dimensions: 350 × 85 × 250 mm
- Net weight: 417 g
- Lighting: Edge-lit LEDs
- Static light colours: 8
- Dynamic lighting modes: Jump, Breathing and Running
- Brightness levels: 6
- Controls: Touch controls with key lock
- Battery display: Percentage indicator
- Battery: Rechargeable 2000 mAh lithium-polymer
- Battery life: Approximately 10 to 15 hours
- Charging connection: USB Type-C
- Charging input: 5 V, 2 A
- Charging time: Approximately 2.5 to 3 hours
