

Material: ABS

Fan speed: 3000RMP

Water tank capacity: 320ml

Capacity: 4.2 W

Voltage: DC5V 0.84A

This retro-styled air cooler is your mobile refrigeration to ice up a warm summer. You can enjoy a cool summer anywhere and anytime. It operates on the same principle of a cold fan by taking the water that flows from the tank through small pipes and diffusing water rapidly around.

Pleasantly cool and no noise

The movable transverse grill design enables ensures a three-direction air supply.

Spray humidification beautification and moisturising

Water is added to the tank to provide moisturising power for the skin while cooling. Spray or aromatherapy can also be added to give you a different cooled environment.

Topwater feeding mechanism, convenient and efficient

When the cover is opened, water and ice crystals can be added directly making the fan easy to operate.

Strong winds with electrodeless adjustment

Multiple wind speeds with endless adjusting rotary knob enable you to adjust the speeds as required.

Various forms of power supply

You can power the fan through a USB charger, Computer, power bank or even your vehicle USB.

Refrigeration and moisturisation cooling more than once

You can add ice cubes to the fan and cooling effect becomes cooler.

Wide-angle air supply, long-lasting cooling

It has a movable transverse grill design with three direction air supply.

SPECIFICATIONS

Carton: 1/8

Item ID: CXTM-21

EAN: 6953156290211

Size: 200 x 300 x 250 mm

Weight: 400 g
