Twelve South Curve Riser - White

The Twelve South Curve Riser in White is a premium metal stand that raises your iMac, iMac M1 or external display to a more comfortable viewing height. Inspired by the minimalist Curve for Laptops, it combines a clean design with an integrated storage shelf to keep your workspace tidy.

- Raises your monitor by 10 cm for greater viewing comfort
- Integrated storage shelf helps keep your desk tidy
- Pairs with the Curve for MacBook for a coordinated dual-screen setup
- Securely supports monitors with bases up to 10 inches wide
- Ventilated shelf design promotes airflow

More comfortable viewing
The Twelve South Curve Riser raises your iMac or external monitor by 4.25 inches (10.7 cm) for a more neck-friendly viewing position. It encourages better posture and can help reduce strain and discomfort during long working hours.

Integrated storage shelf
The built-in shelf provides space for hubs, hard drives, personal items or a Mac mini beneath your iMac or display, helping keep your desk organised.

Pairs with Curve for MacBook
Use the Curve Riser alongside the Curve for MacBook for a coordinated dual-screen setup. Their complementary designs create a consistent look while positioning your Macs at nearly the same height.

Stable monitor support
The sturdy stand provides a stable platform for your iMac or external display and accommodates monitor bases up to 10 inches wide.

Ventilated shelf for airflow
The ventilated storage shelf allows air to circulate around devices such as a Mac mini, which rely on airflow for efficient operation. This helps prevent overheating.

Package includes:

- 1x Curve Riser - White
- 1x User Manual
