- Understated design complements your tech accessories
- Helps protect cables from kinks and tangles

Soft, durable genuine leather
Soft to the touch and durable enough for everyday use, CableSnap wraps offer a practical, refined way to organise your cables.

Two sizes for different cables
The large wrap suits bulkier cables, such as a MacBook charging cable, while the two small wraps are ideal for iPhone Lightning cables and other slim wires.

Integrated loop stays attached to your cable
An integrated loop attaches each CableSnap to one end of your cable, keeping the wrap close at hand when you need to pack up or set up.

Understated design complements your tech accessories
The simple leather design complements your tech accessories at work, at home or on the go.

Helps protect cables from kinks and tangles
Keeping cables neatly wrapped helps reduce kinks and knots that can lead to fraying and damage. By reducing this wear, CableSnap can help extend your cables' useful life.
