Orbit Protect - Black

Orbit Protect is a game-changing innovation to keep you safe at all times. This personal safety wearable has three alert levels, offering reassurance wherever and whenever needed. Press the button, and your loved ones will be notified about your current GPS location, accompanied by a custom message of your choosing. Enjoy a freedom of movement like never before, knowing that with Orbit Protect, you're never alone, and help is always within reach.

- Three different alert levels
- Replaceable battery longevity of up to 6 months
- Pre-determined message and location alert system
- Multipurpose use: clip it, attach it or wear it
- Smartphone connectivity

Three Alert Levels
Orbit Protect allows you to communicate your distress level by pressing the button once and holding it twice or thrice. Each action corresponds to a coloured alert – green, yellow, or red – and sends a notification to your trusted contacts and GPS location, assuring immediate knowledge of your situation.

Replaceable Battery Longevity
Never worry about your device running out of power when needed. Orbit Protect has a replaceable battery offering up to 6 months of battery life (CR2032). So, you'll have long-lasting safety reassurance right at your fingertips.

Pre-determined Message and Location Alert System
Orbit Protect's intuitive design lets you preset a custom message to accompany your alert-level notification. In moments of distress, this feature ensures that your loved ones get instant alerts of your GPS location, paired with a contextual message to give immediate insights into your situation.

Multipurpose Use
Orbit's strong magnet attachment offers versatility in choosing to use it. Clip it to your bag or clothes, attach it to your keys, or wear it. With Orbit Protect, your comfort aligns with your safety.

Smartphone Connectivity
Sync your Orbit Protect with your smartphone using Bluetooth technology. It effortlessly pairs with your phone to enable alert notifications, providing the last known location and acting as a Bluetooth locator. It also sends smart reminders when you leave home without your Orbit.

Package Includes

- Orbit Protect wearable - Black
