Paperlike™ 3 gives your iPad a paper-like feel with responsive Apple Pencil input and straightforward installation. Its Nanodots™ surface helps you write and draw with greater control while protecting your screen. The Butterfly™ Application System helps keep installation clean and simple.

- Paper-like feel for neater writing and controlled sketches
- Responsive Apple Pencil performance
- Helps reduce Apple Pencil tip wear and protects your screen
- Easy, clean installation with dust removal
- The original paper-like screen protector, engineered for creators
- Butterfly™ Application System

Paper-like feel for neater writing and controlled sketches
Glass can feel slippery. Paperlike™ 3 uses a refined Nanodots™ surface to add paper-like resistance for more controlled strokes. It helps make handwriting neater and sketching more precise, with the natural feel of pen on paper while maintaining clarity and comfort.

Responsive Apple Pencil performance
Engineered below Apple's maximum screen protector thickness limit, Paperlike™ 3 keeps latency low and lines pixel-precise, providing responsive feedback as you write, illustrate and annotate.

Helps reduce Apple Pencil tip wear and protects your screen
Paperlike™ 3 balances paper-like friction with a surface that is gentle on Apple Pencil tips. Its durable PET base and specialised surface help minimise tip wear while protecting your iPad display from everyday scuffs, scratches and fine marks.

Easy, clean installation with dust removal
The Butterfly™ Application System combines a full-surface dust catcher, Clean Room Effect, precise alignment tools, a reusable Helper Tool and an interactive on-screen guide to help you achieve a clean, accurately aligned installation.

The original paper-like screen protector, engineered for creators
The third generation of the original paper-like screen protector has been refined through years of testing and feedback from creators. Engineered in Germany and manufactured in Switzerland, Paperlike™ 3 is trusted by over a million artists, students and professionals worldwide.

Butterfly™ Application System
A full-surface dust catcher and Clean Room Effect help remove dust, while alignment tools and an on-screen guide support accurate positioning and application.
