Paperlike Pencil Tips for Apple Pencil & Logitech Crayon, 4-pack - Charcoal gray

Paperlike Pencil Tips offer a paper-like feel and controlled strokes for writing and drawing. Designed for use with Paperlike screen protectors or iPad nano-texture displays, these charcoal-grey tips with a blue base are compatible with all Apple Pencil generations and Logitech Crayon.

- Paper-like friction for better control without excessive tip wear
- Durable polymer rated to last up to 10× longer than standard Apple Pencil tips
- Balanced texture for tactile feedback and reduced rainbow distortion
- Balanced resistance for smoother strokes and less hand fatigue during long sessions
- Charcoal-grey tips with a distinctive blue base

Paper-like friction for better control without excessive tip wear
Paperlike Pencil Tips provide carefully balanced resistance that recreates the drag of writing on paper while minimising abrasion. The added friction helps improve control and writing accuracy.

Durable polymer rated to last up to 10× longer than standard Apple Pencil tips
Made from a tough proprietary polymer, these tips resist wear significantly better than standard Apple Pencil tips. They are rated to last up to 10× longer, even with heavy daily use.

Balanced texture for tactile feedback and reduced rainbow distortion
The tip surface provides consistent tactile feedback for smooth, controlled lines, with significantly reduced visual artefacts, including rainbow distortion, even in glare or bright light.

Balanced resistance for smoother strokes and less hand fatigue during long sessions
Balanced friction allows a lighter grip, helping to reduce wrist strain and hand tension during extended writing or drawing sessions.

Charcoal-grey tips with a distinctive blue base
Each charcoal-grey tip features a Paperlike blue base for a distinctive finish that complements your stylus.

Package includes:

- 4x Paperlike Pencil Tips

Product specifications:

- Compatibility: All Apple Pencil generations, Logitech Crayon
- Material: Proprietary durable polymer
- Durability: Up to 10× longer lifespan than standard Apple Pencil tips
- Designed for: Use with Paperlike screen protectors or iPad nano-texture displays
