Pela Vine Watch Band for 44mm Apple Watch - Black

Designed for an outdoorsy type that loves their tech, and really gives a damn. Pela products are designed to protect your devices, and our planet Earth. Unlike conventional plastics that will last in a landfill for hundreds or thousands of years, Pela products are made with a 100% Compostable Bio-Polymer and plant fibers.

Protects & Preserves Our Oceans

Pela donates a % of every sale to Ocean Cleanup and Preservation Initiatives. Every case sold = less plastic in the ocean.

Biodegradable & Eco-Friendly

100% Compostable. Made from Flax shive and a plant based biopolymer create the base for our compostable cases.

Removable Hardware = Less Waste

We thought it somewhat silly that every watch strap came with its own steel lug, so we redesigned them to be interchangeable. Less waste is never bad.

Say hello to the world's first 100% compostable watch band. Designed to be compatible with the Apple Watch Series 1/2/3/4/5/6/SE, Pela Vine is flexible and functional with a clean look and comfortable feel. Made from our high-performing Flaxstic material that holds up with everyday use, you can rest easy knowing you are protecting the planet by choosing sustainable products. Need to change your band? We've got you covered. Our patent-pending quick-release magnetic metal clasp makes it simple, without any tools. Join the revolution taking action against plastic. With Pela Vine, you can wear your values on your wrist.

How to Apply

Change your watch band within seconds. Our patent-pending quick-release magnetic metal clasp makes it simple, without any tools. Attach the lugs to the band. Snap closed the magnetic lugs and slide the strap in. Quick, simple and gets you on your way to saving the planet.

How it Feels

Soft, flexible and a little bit of grip is how every Vine Watch Band can be described. Outside of being able to wear your values on your wrist and protect the planet, the next most important thing is how this feels so much better on the skin than the other bands on the market.

Materials

?The Pela Case is made of Flaxstic®, which is comprised of compostable bioplastic elastomer and flax straw materials. Our material has been tested to be safe and free of phthalates, BPA, cadmium and lead and is verified to meet child safety standards in the U.S., Canada, Europe, Australia and New Zealand. Our base material meets U.S. (ASTM D6400-04) and E.U. (EN 13432) standards for composting in an industrial composting facility and has a lower carbon footprint and lower greenhouse gas emissions than traditional plastic. It can also be left to biodegrade in a home composting environment.

SPECIFICATIONS

Carton: 0/0
Item ID: 24020
EAN: 670462240209
Size: 55 x 140 x 20 mm
Weight: 40 g
