PHILBERT

Philbert Sunshade and Privacy Hood Laptop Case for 15-16" - Black

Philbert Sun and Privacy Laptop Case with built-in sun and privacy protection made of eco-friendly hemp is the perfect choice if you work on the go, outdoors, or in public spaces. This smart, lightweight sleeve acts as a protective case, a laptop sun shade, and a mobile privacy shield in one, while its sustainable hemp construction keeps your tech safe and your conscience clear.

- Eco-friendly hemp material with premium protection
- Built-in sunshade and privacy hood for outdoor and public use
- Multi-functional design: sleeve, sun hood and portable workstation
- Soft, lightweight, water-resistant and highly portable
- Smart storage with extra compartments for your daily essentials

Eco-friendly hemp material with premium protection
Made from organic and recycled hemp-based material, this laptop case combines sustainability with durability. The innovative coating blends high-performance resins to deliver superior strength, especially in hot conditions, so your case keeps its shape and function even in strong sun. Quality stitching, a magnetic closure, and a robust construction ensure long-lasting everyday protection for your 15–16 inch (approximately 38–40.6 cm) laptop on commutes, travel and outdoor work sessions.

Built-in sunshade and privacy hood for outdoor and public use
Turn any place into a private workspace. The integrated sun hood shields your screen from glare, making it easier to work, watch movies or play games outside without constantly adjusting brightness. At the same time, the side panels help block prying eyes, providing privacy in aeroplanes, trains, schools, offices and coffee shops. By improving screen visibility, the hood also allows you to lower your screen brightness, which can extend battery life when you are away from a power outlet.

Multi-functional design: sleeve, sun hood and portable workstation
This is more than a simple laptop sleeve. Use it as a classic protective case during transport, then unfold it into a stable sun hood and privacy workstation in seconds. The clever design allows you to keep your computer inside the case while you work, so there is no need to remove it. When you are done, it folds flat again for easy storage in your bag or backpack, making it a perfect all-in-one solution for mobile professionals, students and travellers.

Soft, lightweight, water-resistant and highly portable
Despite its solid construction, the case is soft, lightweight and easy to carry all day. The eco-friendly material is water-resistant to help protect your laptop from light rain, splashes and everyday accidents. Durable yet comfortable to handle, it is designed for frequent use and frequent travel. The perforated section on the back promotes airflow to help keep your laptop cool, even in warmer environments or under longer workloads.

Smart storage with extra compartments for your daily essentials
The Baseus Philbert case features a large main pocket for your laptop and additional compartments for your essentials. Store your smartphone, power bank, charging cables, credit cards, cash and documents in the integrated pockets to keep everything you need in one place. Built-in pendants for straps give you the option to use it as a standalone bag, adding flexibility to how you carry and use it throughout the day. The design even helps protect your keyboard from accidental respiratory droplets in crowded environments, adding an extra layer of hygiene when you work in public.

Package includes

- 1 x Philbert Sun and Privacy Laptop Case made of eco-friendly hemp (fits 15–16 inch laptops, approximately 38–40.6 cm) - Black
