Innovative AR-Powered Gaming System
Our gaming set includes one gamepad, interchangeable gaming kits, and a companion app, designed to offer story-based, reality games. Each gaming kit is designed to stimulate a child's intellect and curiosity in science, technology, engineering, art, and mathematics known as STEAM disciplines.

Fun and Educational
Plugo Link brings together classic building blocks with modern digital play. Here, children solve exciting engineering puzzles on the screen by building and balancing the magnetic blocks in the real world.

Multilingual
Designed to benefit multilingual families, Plugo supports up to 8 languages, including Swedish, Norwegian, and Danish. This wide language offering ensures that your child remains connected to their native language while learning new ones.

Age-Adaptive Challenges
The Plugo Link's games are designed to be age-adaptive, catering to children from PreK to Grade 5. This means the challenges evolve to match your child's intellectual development.

300+ Challenges and brain-teasers
Give your child the best cognitive stimulation with over 300 challenges and brain teasers available on Plugo. Let them test their problem-solving skills in a fun, engaging way.
