Latest Qi2 Technology

Boasting the latest Qi2 wireless charging standard, the Satechi Charging Stand provides a powerful magnetized connection. This secure alignment allows your iPhone to charge efficiently with up to 15W of power as opposed to the 7.5W limitation of standard Qi devices and also supports 5W charging for your AirPods.

Two-In-One Charging Solution

Forget the hassle of multiple cables. Our charger is designed to power your iPhone and AirPods simultaneously using a single cable. The magnetic charging puck and the dedicated base for AirPods simplify your charging setup, making it cleaner and more efficient. Stand boasts powerful integrated magnets that are secure enough to hold heavier phones. The improved magnetic connection ensures proper coil alignment for an optimally efficient charge.

Foldable and Travel-Friendly

Carry your charger wherever you go. This 2-in-1 charger boasts a foldable design that is perfect for travel. Lightweight and compact, it fits easily into your luggage, making it an essential accessory for your trips.

Crafted with Premium Materials

Satechi believes in quality and sustainability. This charging stand is constructed with high-quality aluminum and features a scratch-resistant vegan leather base. Durable and designed to last, it combines style with functional design.

StandBy Mode Support

Utilizing iOS 17's StandBy mode, the Satechi Charging Stand allows you to view essential notifications in landscape mode while charging. Stay updated with your incoming calls and messages more seamlessly.
