SATECHI

Satechi 3-in-1 Foldable Qi2 Wireless Charging Stand - Black

Keep your iPhone, Apple Watch, and earbuds charged and ready with one compact stand. The Satechi 3-in-1 Foldable Wireless Charging Stand brings together fast Qi2 wireless charging, a foldable travel-ready build, and everything you need out of the box to charge at home, at the office, or on the road.

- Qi2-certified fast wireless charging up to 25W for iPhone
- Foldable design for travel with portrait and landscape viewing
- 3-in-1 charging for iPhone, Apple Watch, and earbuds
- Magnetic alignment for accurate and secure phone placement
- Includes 45W USB-C power adapter and international plug adapters

Qi2-certified fast wireless charging up to 25W for iPhone
The stand delivers up to 25W Qi2 wireless charging for compatible iPhone models, making it noticeably faster and more efficient than standard wireless chargers. Whether you want a quick top-up during the day or a full overnight charge, this stand handles both without compromise. It supports Qi, Qi2, Q2.2 and MagSafe wireless charging standards, making it a reliable long-term choice as your device lineup grows.

Foldable design for travel with portrait and landscape viewing
The stand folds flat so it takes up minimal space in your bag, and opens into a stable charging position when you need it. It supports both portrait and landscape orientation, making it practical for using StandBy mode, joining video calls, streaming content, or keeping an eye on notifications while your phone charges. A solid choice for anyone who moves between home, office, and travel regularly.

3-in-1 charging for iPhone, Apple Watch, and earbuds
One stand handles three devices at the same time, removing the need for separate chargers cluttering your desk or nightstand. The iPhone pad delivers up to 25W, while the Apple Watch and earbuds pads each deliver up to 5W. Apple Watch fast charging is supported for Apple Watch Series 7 to 11, Apple Watch SE 3, and Apple Watch Ultra Gen 1 to 3.

Magnetic alignment for accurate and secure phone placement
The magnetic charging surface guides your phone into the correct position automatically, creating a stable connection and consistent charging performance every time you place it down. This is particularly useful for MagSafe-compatible and Qi2-compatible devices, where proper alignment makes a clear difference to charging speed. For some devices, a compatible magnetic case or adapter may be needed to take full advantage of the magnetic feature.

Includes 45W USB-C power adapter and international plug adapters
Everything required to use this stand at full performance is included in the box. The 45W USB-C power adapter and USB-C cable are matched to the stand's output requirements, and the included UK and EU plug adapters mean you can travel internationally without hunting for separate accessories. One box covers all the essentials.

Package includes
