SATECHI

Satechi ChargeView 140W 4-port USB-C Desktop Charger - Space Black

The Satechi ChargeView™ 140W Desktop Charger is a refined charging solution created for modern workspaces. With four USB-C ports, advanced GaN technology and a built-in digital display showing real-time wattage for each port, it delivers efficient power to your laptop, tablet, smartphone and accessories from a single, desk-friendly unit. Its Space Black finish and modular stand allow it to sit vertically or horizontally, helping you keep cables tidy and your workspace organised.

- 140W total output for laptops, tablets, phones and accessories
- Real-time digital display showing wattage per USB-C port
- Four USB-C ports with intelligent power distribution
- Advanced GaN technology for efficient and stable charging
- Modular stand for vertical or horizontal desk placement

140W total output for laptops, tablets, phones and accessories
With up to 140W of total power, the ChargeView™ comfortably supports demanding devices such as the MacBook Pro alongside everyday essentials. One charger replaces several adapters, giving you a single, capable hub for your daily setup.

Real-time digital display showing wattage per USB-C port
The integrated digital display shows live wattage for each port individually, so you can see exactly how much power each connected device is drawing. This gives you clear insight into how your devices are charging without any guesswork.

Four USB-C ports with intelligent power distribution
Port C1 supports USB PD 3.2 with AVS (Adjustable Voltage Supply) for the fastest possible charge to the newest iPhones, while ports C2, C3 and C4 use USB PD 3.1 with PPS. All four ports charge simultaneously, and the charger automatically renegotiates power across the active ports based on each device's needs.

Advanced GaN technology for efficient and stable charging
Next-generation GaN architecture delivers high output in a compact form while running cooler and more efficiently than traditional chargers. Built-in protection against overheating, overcurrent and overvoltage keeps your devices safe during daily use.

Modular stand for vertical or horizontal desk placement
The included modular stand lets you position the charger vertically to save space or horizontally for cleaner cable management. Combined with the Space Black finish, the ChargeView is designed to sit on your desk rather than be hidden beneath it.

Package includes

- 1x Satechi ChargeView™ 140W Desktop Charger - Space Black
- 1x Modular stand
- 1x User manual

Product specifications

- Brand: Satechi
