Makes SSD Disk External

Why struggle with limited storage when you can make your SSD disk external? Our enclosure allows for a hassle-free connection of your M.2 NVMe SSDs or M.2 SATA SSDs, providing you with the flexibility to enhance the storage capacity of your computer whenever needed.

Plug and Play Design

No complicated installations, no lengthy procedures. Our design focuses on simplicity and efficiency. Just plug in and start transferring data – no need for any driver.

USB 3.1 Gen 2 Cable Included

Experience speed and reliability with the USB 3.1 Gen 2 cable that supports up to 10 Gbps High-speed M.2 NVMe to USB 3.1 Gen 2, and 6Gbps speed M.2 SATA to USB 3.1 Gen 1. Ideal for high-speed data transfer and backup.

Rugged and Modern Design

Satechi's Enclosure features a sturdy, rugged construction that allows for improved heat dissipation, preventing your devices from overheating. In addition, its modern design adds a touch of elegance to your setup.

Efficient USB-C Interface

Our enclosure has a USB-C interface, enabling effective data transfer and backup via USB C 3.2 Gen2 or Thunderbolt 3/4. USB-C Gen 2 (10 Gbps) or Thunderbolt 3 (10 Gbps) are recommended for top-notch speed performance.
