- Ultra-slim wallet-friendly profile
- Year-long battery with easy replacement
- Water and dust resistant durability
- Instant one-tap setup

Precision Tracking via Apple's Find My Ecosystem
See your wallet's location in real-time on the Find My app across all your Apple devices. Trigger a distinct sound to locate items under couch cushions or receive notifications if left behind at a café. The encrypted network anonymously crowdsources location data from millions of Apple devices worldwide. With a connection range of 10-20 meters indoors and 20-50 meters outdoors, the FindAll™ Card ensures you can quickly locate your wallet, whether it’s slipped between couch cushions or left on a coffeeshop table.

Ultra-Slim Wallet-Friendly Profile
Crafted thinner than two credit cards (2.5mm), the FindAll™ slides discreetly into any wallet slot without bulk. The sand anodized aluminum finish resists scratches while complementing premium leather accessories. Never sacrifice style for security.

Year-Long Battery with Simple Replacement
The FindAll™ Card features a wirelessly rechargeable battery that lasts up to 16 months on a single charge, ensuring long-term convenience. No charging cables mean one less device to manage in your daily routine. Its battery is compatible with any Qi, Qi2, or MagSafe charger, making recharging as simple as setting it down.

Water and Dust Resistant Durability
With IP67 protection, your tracker withstands rain, spills, and accidental washes. The reinforced casing shields against drops and daily abrasions in pockets or bags. Travel confidently knowing your location lifeline works in downpours or dusty trails.

Instant One-Tap Setup
Activate your FindAll™ in 15 seconds: Simply hold it near your iPhone and approve the connection prompt. No apps to download or accounts to create. Share location access with family members so everyone can help find misplaced items.
