SATECHI

Satechi OntheGo™ 5-in-1 Multiport Adapter for MacBook Neo - Blush

Designed for MacBook Neo, the Satechi OntheGo™ 5-in-1 Multiport Adapter is built to maximize Neo's only full-function USB-C port — turning a single connection into a compact, travel-ready workstation. Connect a 4K display, charge your device, transfer files, and access SD cards at the same time, all in a portable, color-matched design made for everyday use and travel.

- Complete 5-in-1 expansion
- 4K HDMI display output
- 60W USB-C pass-through charging
- Fast USB and SD data transfer
- Magnetic, travel-ready design

Complete 5-in-1 expansion
Expand a single USB-C port into multiple essential connections for work, travel, and creative workflows. The adapter supports display output, charging, USB data transfer, and SD card access simultaneously, helping you stay productive without carrying multiple accessories.

4K HDMI display output
Connect to an external monitor, TV, or projector with HDMI support up to 4K at 60Hz. It is ideal for extending your workspace, presenting, streaming, or working with a larger screen while keeping your setup simple and compact.

60W USB-C pass-through charging
Keep your MacBook Neo or compatible USB-C device powered while using the adapter. With up to 60W USB-C Power Delivery pass-through, you can charge and stay connected to your display, storage, and accessories at the same time.

Fast USB and SD data transfer
Transfer files through the USB-A and USB-C data ports at up to 5Gbps, suitable for everyday drives, accessories, and peripherals. The SD card slot supports speeds up to 104MB/s, making it easy to import photos, videos, and project files while on the go.

Magnetic, travel-ready design
The compact 65 x 65 x 22 mm puck has a soft-touch magnetic base and integrated nylon-braided cable storage for a clean setup in your bag or on your desk, with a finish color-matched to MacBook Neo. Use the included 3M adhesive rings to attach it to the back of your Neo, or connect it magnetically to a compatible MagSafe iPhone for quick SD card offloads.

Package includes

- Satechi OntheGo™ 5-in-1 Multiport Adapter - Blush
- 2 x 3M adhesive rings
- User manual
