SATECHI

Satechi OntheGo™ Bluetooth Mouse - Sand

Satechi OntheGo™ Bluetooth Mouse is a compact, premium wireless mouse built for work anywhere. It pairs over Bluetooth for a stable connection, offers adjustable precision, and switches smoothly between two or three devices so you can stay productive across your laptop and tablet.

- Bluetooth 5.1 with stable wireless connection
- Adjustable DPI (800/1200/1600/2400) for precise control
- Multi-device pairing for two or three connected devices
- USB-C fast with upto 45 days of battery life
- Compact aluminum design made for travel

Bluetooth 5.1 with stable wireless connection
Satechi OntheGo™ connects via Bluetooth 5.1 for a reliable, cable-free setup that keeps your workspace clean and your movement unrestricted. Ideal for laptops, tablets, and mobile devices when you're working from a desk, a café, or on the move.

Adjustable DPI for precise control
Choose the sensitivity that matches your work with four DPI settings: 800, 1200, 1600, or 2400. Go lower for controlled navigation and detailed tasks, or higher for faster movement across large screens.

Multi-device pairing for two to three connected devices
Pair the mouse with two or three devices and switch between them quickly when you move from one screen to another. It's a practical way to work across, for example, a laptop and a tablet without re-pairing each time.

USB-C fast charging with long battery life
Recharge with USB-C and get back to work quickly. A full charge takes about 2 hours and delivers up to 45 days of battery life depending on usage, reducing the need to charge frequently while traveling.

Compact aluminum design made for travel
Built with a durable aluminum body and an ultra-portable shape, Satechi OntheGo™ Mouse fits easily into a bag and feels comfortable in hand for everyday use. The lightweight build makes it easy to carry without sacrificing a premium feel.

Package includes

- 1× OntheGo™ Bluetooth Mouse - Sand
- 1× USB-C Charging Cable
- 1× Product Manual
