SATECHI

Satechi Slim USB-C MultiPort Adapter - Space gray

The best seler is back!

Expand one USB-C port into the essential connections you need for work, display and everyday accessories. The Satechi narrow USB-C MultiPort Adapter adds 4K HDMI, USB-C pass-through charging and two USB-A ports in a compact space grey design made to complement modern laptops, tablets and desktops.

- Connect to a 4K HDMI display
- Charge while you work
- Add two USB-A ports
- Designed for USB-C devices
- Compact space grey design

Connect to a 4K HDMI display
Use the HDMI port to connect your device to an external monitor or display. When paired with a compatible computer and 4K display, the adapter supports high-resolution video output for a clearer workspace, presentations or entertainment setup.

Charge while you work
The USB-C pass-through charging port lets you power your device while using the adapter's other ports. This keeps your USB-C connection practical for daily use, especially when working from a laptop with limited ports.

Add two USB-A ports
Two USB-A ports give you extra room for accessories such as keyboards, mice, flash drives and other compatible peripherals. For best performance, connect one bus-powered device at a time.

Designed for USB-C devices
The adapter works with a wide range of USB-C devices, including selected MacBook, iPad, iMac, Mac mini, Mac Studio, Microsoft Surface, Dell XPS, Lenovo Yoga, Google PixelBook, HP Spectre, Razer Blade and Huawei Matebook models.

Compact space grey design
The slim aluminium-style design is made for modern workspaces and travel. Its space grey finish pairs neatly with premium devices while keeping your desk setup clean and efficient.

Package includes:

- Satechi Slim USB-C MultiPort Adapter
