Comprehensive Connectivity Range
Expand your Mac Mini's or Mac Studio's capabilities with a full array of ports. This includes USB-C 3.1 and USB-A 3.1 for fast file transfers, dual USB-A 3.0 ports for additional peripherals, dedicated micro/SD card readers for media import, and an audio jack to enhance your audio setup.

High-Speed NVMe and M.2 SATA SSD Support
The Stand & Hub's upgraded SSD enclosure lets you experience the pinnacle of data transfer and storage expansion. By supporting NVMe and M.2 SATA SSDs, you unlock supreme speeds and flexibility for your data needs.

Effortless Time Machine Backups
Ensure your valuable data is never lost with easy-to-accomplish Time Machine backups. The Stand & Hub provides a straightforward process for secure and regular backups of your Mac's information, safeguarding all your work and memories.

Sleek, Space-Saving Design
The patented design of the Stand & Hub complements the Mac Mini and Mac Studio's aesthetic. It connects through a single cable and features elevated mounting brackets and cooling vents, optimizing space and device temperature for seamless integration into your workstation.

Generous Data Transfer Rates
Benefit from rapid data transfer speeds with the Stand & Hub's versatile ports. USB-C 3.2 offers speeds up to 10Gbps, USB-A 3.2 matches this speed, and the USB-A 3.0 options provide up to 5Gbps – ideal for transferring large files without the wait.
