Multi-sensor Air Quality Monitoring

Incorporating multiple sensors, the Sensibo Elements offer a comprehensive overview of your indoor air quality. It detects pollutants in your air, ensuring you breathe cleaner and healthier air.

Live, Smart Notifications

Stay informed about your air condition even when you're on the go. Sensibo Elements provides live indoor pollution alerts and real-time air quality updates to your phone.

Harmful Substance Detection

The smart multi-sensor device identifies harmful airborne contaminants to protect your family and enable you to take immediate action against indoor pollution. It safeguards your environment from dangerous gases, dust, wildfire smoke, and allergens.

Integration with Google Assistant and Amazon Alexa

Google Assistant and Amazon Alexa make smart home integration easy, allowing seamless and quick operations. It allows for easier monitoring and improved automation.

LED Indicator Reflecting Air Quality

Visual feedback about your environment comes through a smart LED indicator, changing colours according to your air quality. This gives you a simple and straightforward understanding of indoor air quality.
