Sensibo Pure - Air purifier with HEPA and carbon filter

Sensibo Pure helps create cleaner indoor air with intelligent purification, efficient operation and a compact design for everyday use. It monitors your air quality, responds automatically when conditions change and uses a 3-phase filtration system to reduce common airborne pollutants such as dust, pollen, smoke, bacteria, viruses and fine particles.

- Monitors air quality and operates automatically
- Uses only 23 W of power
- Pure Boost improves purification when pollution rises
- Smart triggers coordinate with your AC fan
- 3-phase filtration captures particles down to 0.1 µm

Monitors air quality and operates automatically
Sensibo Pure is designed to work in the background throughout the day. Its built-in indoor air quality sensor monitors your environment and allows the purifier to turn on and off automatically when needed. It can also adjust its operation based on activity in your home, helping maintain cleaner air without constant manual control.

Uses only 23 W of power
With a power consumption of just 23 W, Sensibo Pure is built for efficient daily use. It provides continuous air quality monitoring and purification while keeping energy use low, making it suitable for regular operation in bedrooms, living spaces, offices and other indoor areas.

Pure Boost improves purification when pollution rises
Pure Boost technology helps Sensibo Pure respond when indoor pollution levels increase. When needed, it can work with your AC fan to increase air circulation and improve purification performance. It can also activate stronger purification when you leave home, so you return to a fresher indoor environment.

Smart triggers coordinate with your AC fan
Sensibo Pure uses smart triggers to coordinate air purification with your AC fan, helping move more air through the room. This improved circulation can boost purification by up to 70%, allowing the purifier to clean the air more effectively across the space.

3-phase filtration captures particles down to 0.1 µm
The 3-phase filtration system combines a pre-filter, HEPA filter and active carbon filter. Together, they help reduce dust, pollen, smoke, mould spores, bacteria, viruses, unpleasant odours and airborne particles down to 0.1 µm. This layered filtration supports cleaner air for everyday comfort and wellbeing.

Package includes

- 1 x Sensibo Pure air purifier in white
- 1 x Filter

Product specifications

- Brand: Sensibo
- Product type: Smart air purifier
- Colour: White
- Filtration system: Pre-filter, HEPA filter and active carbon filter
- Filters pollutants including: Viruses, bacteria, mould spores, pollen, smoke, PM1, PM2.5, PM10, dust and airborne particles down to 0.1 µm
- Filter life: Up to 6 months under normal conditions and use
- Dimensions: 195 x 195 x 388 mm
- Room size coverage: Up to 27 square metres in Pure Boost mode and up to 16 square metres on lowest power
- Noise level: 53 dB
- Cord length: 183 cm
- Power consumption: 23 W
- Electricity input: 100 to 240 V, 50/60 Hz
- Network bands: WiFi 2.4 GHz and Bluetooth 4.0
- App compatibility: iOS and Android
- Voice assistants: Amazon Alexa, Google Home, Google Assistant and Siri Shortcuts
- Smart home compatibility: Amazon Echo, Google Home, Apple HomeKit and Apple Siri Shortcuts

SPECIFICATIONS

Carton: 1/4
Item ID: SEN-PUR-MIR-01
EAN: 7290016037210
Size: 200 x 200 x 490 mm
Weight: 2500 g
