Experience the pleasure of gardening without the hassle and effortlessly bring the essence of spring into your living spaces.

- Effortless indoor gardening with smart technology
- Year-round aromatic blooms to freshen up your home
- Natural and toxin-free cultivation for peace of mind
- Rapid sprouting and long-lasting flowers for extended enjoyment
- Designed for optimal growth and flowering

Effortless Indoor Gardening with Smart Technology

Click and Grow's innovative smart garden system makes growing vibrant flowers as easy as inserting plant pods. The smart garden takes over the work, maintaining the perfect balance of light, water, and nutrients. Reap the rewards of gardening without getting your hands dirty.

Year-Round Aromatic Blooms to Freshen Up Your Home

Whether it's the dead of winter or the peak of summer, your smart garden ensures a constant supply of aromatic flowers. With petunias and pansies that begin blooming in just 50 days and the visually striking polka dot plant, freshen up your home with living decor that thrives all year round.

Natural and Toxin-Free Cultivation for Peace of Mind

Click and Grow is committed to natural, clean gardening. All the plant pods are free from herbicides, pesticides, and other toxins, ensuring that while the flowers are not edible, they are entirely safe for you and your loved ones to enjoy.

Rapid Sprouting and Long-Lasting Flowers for Extended Enjoyment

Watch with delight as your seeds sprout quickly, within 7 - 14 days, and cherish the vibrant blooms that last up to 12 weeks. Proper care will extend the life of your pods, providing you with a more extended flowering period and a continuous spread of colour and fragrance.

Designed for Optimal Growth and Flowering

Every detail of the Click and Grow flower mix is meticulously crafted for the best possible performance. Petunias adjust their growth to the smart garden's lamp arm, pansies bloom with regular deadheading, and polka-dot plants add a lively accent to your floral arrangement.
