

Click & Grow Plant Pods 3-Pack - Mini Sunflowers

Bring a burst of sunshine to any space with our Mini Sunflowers. These vibrant, compact blooms are allergy-friendly, easy to grow in any Click & Grow Smart Garden, and guaranteed to lift the mood in any room. No pollen, no mess—just pure sunshine in a pot.

- Bright, compact sunflowers that light up your space
- 100% pollen-free—great for allergy-sensitive homes
- Grows effortlessly in any Click & Grow Smart Garden
- Can be transplanted outdoors during warmer months
- Sprouts fast, blooms last up to 12 weeks

Bright, compact sunflowers that bring big summer energy indoors

Mini Sunflowers are a mood-lifting favorite—compact enough to grow in your kitchen, yet vibrant enough to light up a whole room. Their bold yellow blooms instantly add color and warmth, making them a joyful centerpiece in any space.

Hypoallergenic and pollen-free—perfect for allergy-sensitive households

No sneezing, no sniffles, just pure floral enjoyment. These sunflowers are pollen-free, making them ideal for allergy sufferers, families with kids, or anyone who wants flowers without the side effects.

Smart garden compatible for fuss-free indoor growth

Designed to thrive in your smart garden, these plants require little effort and no prior gardening knowledge. Simply insert the pod, add water, and let the smart garden do the rest—sunflowers will sprout in just 1–2 weeks.

Can be transplanted outdoors in warm weather for extended life

Once summer arrives, you can move your Mini Sunflowers outside to continue blooming naturally in sunlight. They adapt well when transplanted and can stretch their life beyond 12 weeks with outdoor care.

Quick to sprout, easy to maintain, and blooms last up to 12 weeks

Expect germination within 1–2 weeks and full blooms by ~60 days. Each flower lasts up to 12 weeks, and in many cases, a second flower will appear after the first fades—just prune brown leaves to keep it looking fresh.

Package includes:

- 3 × Mini Sunflower Plant Pods (*Helianthus annuus*)
