

Click & Grow Smart Garden 3 Start Kit - Sage

Transform your living space into an oasis of fresh flavours and organic produce with the Click & Grow Smart Garden 3 Start Kit. This sleek addition to your home makes it effortless to cultivate herbs, fruits, and vegetables year-round, no matter the climate or space constraints. Grow your pesticide-free garden with ease thanks to our innovative technology.

- Automated Watering & Nutrients
- Advanced LED Light System
- Biodegradable Plant Pods
- Smart Soil Technology
- Energy Efficient

Automated Watering & Nutrients

The Smart Garden 3 ensures your plants are consistently hydrated and nourished without any guesswork. It's designed to provide an ideal mix of water and nutrients automatically; all you need to do is refill the water tank when it runs low, approximately once a month. Forget about daily watering schedules – your garden essentially takes care of itself.

Advanced LED Light System

Outfitted with an energy-efficient LED lamp that mimics natural sunlight, your indoor garden receives just the right amount of light, regardless of weather or location. The adjustable design lets your plants continue to reach up high, and as they grow, you can easily extend the lamp's arms to accommodate their height.

Biodegradable Plant Pods

Embrace sustainability with our plant pods, which are fully biodegradable and free of harmful chemicals. Each pod contains seeds and smart soil, kick-starting your growing process with no additional setup. Plus, the pods deliver all necessary nutrients throughout each plant's lifecycle.

Smart Soil Technology

Inspired by NASA, this isn't your average dirt. Our Smart Soil creates the perfect environment for plant growth, releasing nutrients at the right time while maintaining a balanced pH and ensuring proper oxygen levels. Even when the soil is moist, plants can breathe and access what they need, thanks to this innovative feature.

Energy Efficient

Energy consumption is kept to a minimum with the Smart Garden 3. The LED lighting system is designed to use very little power, ensuring that your impact on the environment and your electricity bill is as small as possible. It's an investment in greener living that keeps your wallet in mind.

Package includes

- 1 x Smart Garden 3 unit - Dark Gray
- 2 x Lamp extension arms
- A Quick start guide with pro gardener tips
- 3 x Complimentary soil pods with basil seeds

Product specifications

- Colour: Dark Grey
- Plant pod capacity: 3
- Product dimensions (width x height x depth): 300 x 210-470 x 120 mm
- Water tank capacity: 1.2 litres
- Cable length: 1900 mm
- Weight: 1.2 kg
- Material: ABS plastic
- Energy consumption: 8 W
- Monthly power used: 3.8 kWh

The plastic cups and covers used for the plant capsules are **reusable** and should **not** be thrown away. For more information on product maintenance and cleaning, [click here](#)
