Effortless Setup

Using the Grow Smart Garden Refill pack is straightforward; insert the Plant Capsules into your Click and Grow Smart Garden Starter kit. Your lavender plants sprout in no time, with the promise of their distinctive aroma soon to follow.

A Fragrant Addition to Food and Beverages

The lavender you grow is not just a treat for the eyes, but it's edible, offering a gourmet experience for your home cooking and beverages. Fresh lavender will elevate your recipes, bringing an organic touch to your culinary creations.

Designed to Flourish Indoors with Ease

Click and Grow technology ensures that your lavender grows optimally, providing the right amount of light, water, and nutrients. The growth process begins quickly, maintaining a pace that will have you harvesting the herb in no time.

Harvest Your Lavender Within Just a Few Weeks

Patience pays off, as your lavender will be ready for an initial harvest of the aromatic leaves after a month. Trimming the tips will encourage further growth, allowing you to enjoy the herb continuously.

Supports the Growth of Multiple Seedlings

This refill pack allows for the growth of numerous seedlings, ensuring a lush supply of lavender. If you prefer the plants to bloom, reduce the number and wait a tad longer to enjoy the full visual splendour.
