

Introducing the Sensibo Air Pro - an intelligent sensor designed to elevate indoor air quality. This little device connects to your air conditioning and heat pump, transforming them into first-class air purifiers, and gives you a complete overview of the air quality in your home through the Sensibo app.

- Monitors Indoor Air Quality
- Offers Remote AC Control
- Facilitates Geolocation-based AC Control
- Comes with Smart Temperature Settings & 7-Day Scheduling
- Compatible with Leading Smart Home Devices

Monitors Indoor Air Quality

The Sensibo Air Pro continually tracks air quality inside your house, alerting you to high levels of CO₂ and TVOC, which are common in everyday products. This feature safeguards your health by warning you of harmful substances which can cause headaches, fatigue, and brain fog.

Offers Remote AC Control

You can easily control your air conditioning directly from your smartphone, at home or miles away. This remote accessibility ensures you always return to a house that's your ideal comfort temperature.

Facilitates Geolocation-based AC Control

The Sensibo Air Pro has a geolocation feature, allowing it to control your AC automatically based on location. It can power on your AC before you arrive and power it off when you leave, saving energy and ensuring your comfort.

Comes with Smart Temperature Settings & 7-Day Scheduling

Manage your home's temperature by using the 7-day scheduling feature. This lets you automate the temperature settings to suit your convenience, providing ideal room conditions when you wake up every morning or go to bed each night.

Compatible with Leading Smart Home Devices

Sensibo Air Pro integrates effortlessly with top smart home platforms like Apple HomeKit, Google Home, and Amazon Alexa. This means you can control your AC using your favourite voice assistant, enhancing the 'smart' in your smart home setting.
