Lite Bulb Moments Smart GU10 LED Bulb - Transparent

Create the right light for every moment with the Lite Bulb Moments smart GU10 LED bulb. Control brightness, white temperature and RGB colours directly from the app, or use voice control through Google Home or Amazon Alexa. With Wi-Fi and Bluetooth support, simple setup and no separate hub required, it is designed for everyday comfort, routines and energy-efficient smart lighting.

- Follows your circadian rhythm
- No hub needed
- Full RGB colour scale
- Routines and scenes in the app
- Compatible with Google Home and Amazon Alexa

Follows your circadian rhythm

Light has a direct effect on comfort, focus and rest. The Lite Bulb Moments GU10 bulb lets you adjust the colour temperature from warm 2700 K light to cooler 6500 K daylight. This makes it easy to create softer light in the evening and clearer, more energising light during the day.

No hub needed

The bulb connects directly to your Wi-Fi network and can also be set up using Bluetooth. You do not need a separate hub, which makes installation simple and flexible. Add the bulb through the TUYA Smart app and control it from your phone in just a few steps.

Full RGB colour scale

Choose from approximately +16 million colours to match your room, activity or mood. Use warm white for a calm evening, cool white for practical tasks, or RGB colours for decorative lighting and atmosphere.

Routines and scenes in the app

Create routines and scenes that suit your daily life. You can set lights to turn on when you come home, dim in the evening, or switch off when you leave. The app gives you practical control over individual bulbs and lighting groups.

Compatible with Google Home and Amazon Alexa

Control your lighting with voice commands through Google Home or Amazon Alexa. Turn lights on or off, adjust brightness, or set the light level in a specific room without using your phone.

Package includes

- 1 x Lite Bulb Moments White and Colour Ambience RGB GU10 LED bulb
- User Manual

Product specifications
