

Lite bulb moments Smart Bulb E27

Create the right light for every moment with Lite bulb moments. This smart E27 bulb gives you adjustable white light, rich RGB colour, app control, timers, dimming and voice control in one simple solution. Use it to set the atmosphere, support daily routines and control your lighting from anywhere through the Lite app.

- App control with scenes, routines and timers
- Circadian lighting that supports your daily rhythm
- Voice control with Google Home and Amazon Alexa
- Energy-efficient LED design with long lifetime
- Easy setup with Wi-Fi, Bluetooth and Tuya support

App control with scenes, routines and timers

Control the bulb directly from the Lite app, whether you want to turn it on or off, adjust brightness, change colour or set a timer. The bulb connects individually to your Wi-Fi network, making it easy to manage one bulb or several. Create scenes and routines to match different times of day, activities or moods.

Circadian lighting that supports your daily rhythm

The circadian light function is designed to follow the natural feel of daylight. By adjusting the tone of the light during the day, the bulb can help support a more comfortable sleep-wake rhythm, increase focus when needed and create a calmer atmosphere in the evening.

Voice control with Google Home and Amazon Alexa

Use simple voice commands through Google Home or Amazon Alexa to control your lighting without opening the app. Adjust brightness, change colour, switch the bulb on or off, or activate your preferred lighting setting with your voice.

Energy-efficient LED design with long lifetime

With an output of 800 lumens and a power consumption of 8.5 W, the bulb provides the brightness of a traditional 60 W bulb while using significantly less energy. The LED design has a lifetime of up to 25,000 hours and is mercury-free and flicker-free for reliable everyday use.

Easy setup with Wi-Fi, Bluetooth and Tuya support

Installation is straightforward. The bulb supports both Wi-Fi and Bluetooth and works with 2.4 GHz and 5 GHz networks. Follow the step-by-step guide in the Tuya app to connect the bulb and start controlling your lighting.

Package includes

- 1 x E27 RGB smart bulb
- User manual

Product specifications

- Brand: Lite bulb moments
- Product name: Lite Bulb Moments Smart Bulb E27 with Wi-Fi, Bluetooth, app control and support for Google Home and Alexa
