Lite bulb moments Smart Light Chain - Globe Facets

Create the right atmosphere indoors or outdoors with Lite Bulb Moments Smart String Lights Globe Facets. Control colours, brightness, timers and lighting effects from the TUYA app, or use voice control with Google Assistant and Amazon Alexa. With 25 faceted globe LED bulbs, more than 16 million colours and music sync, these string lights are made for everything from everyday ambience to garden parties and celebrations.

- Wi-Fi app control with TUYA
- More than 16 million RGB colours
- Music sync with built-in microphone
- Voice control with Google Assistant and Amazon Alexa
- Weather-resistant design for indoor and outdoor use

Wi-Fi app control with TUYA

Connect the string lights to your 2.4 GHz Wi-Fi network and control them directly from the TUYA app. Adjust brightness, change colours, set timers and create custom lighting scenes from your phone. The setup is simple, making it easy to get started and manage your lighting whenever you need it.

More than 16 million RGB colours

Each light source offers a wide range of colour options, giving you the flexibility to match the lighting to your space, mood or occasion. Choose soft ambient tones for everyday use, colourful effects for parties or dynamic light settings for a more expressive look.

Music sync with built-in microphone

The built-in microphone allows the lights to react to music and sound, creating a coordinated light effect that follows the rhythm. This makes the string lights ideal for parties, dinners, outdoor gatherings or any setting where you want the lighting to feel more alive.

Voice control with Google Assistant and Amazon Alexa

Lite Bulb Moments Smart String Lights Globe Facets work with Google Assistant and Amazon Alexa, so you can control your lighting hands-free. Turn the lights on or off, adjust settings or group multiple compatible light chains together for coordinated control throughout your space.

Weather-resistant design for indoor and outdoor use

The string lights and controller are IP65 rated, making them suitable for outdoor use in changing weather conditions. They can be used on patios, balconies, gardens, terraces or indoors as decorative lighting. The power adapter is IP44 rated and should be placed appropriately when used outdoors. The product is weather resistant, but it should not be submerged in water.

Package includes

- Lite Bulb Moments Smart String Lights Globe Facets
- IP65 string lights and controller
- IP44 power adapter
- User manual
