Lite bulb moments Smart Light Chain - Globe Cone

Lite Bulb Moments Smart Light String Globe Cone gives you flexible, app-controlled lighting for both indoor and outdoor spaces. Choose from more than 16 million colours, adjust brightness, set schedules, create scenes and control the light string by voice through Google Assistant or Amazon Alexa. With IP65-rated string lights and music sync, it is designed for everyday atmosphere, parties, garden evenings and seasonal decoration.

- App-controlled RGB lighting
- Suitable for indoors and outdoors
- Fully programmable with the TUYA app
- Music sync for dynamic light effects
- Compatible with Google Assistant and Amazon Alexa

App-controlled RGB lighting

Choose from more than 16 million colour options and adjust the lighting to match the moment. Whether you want soft ambient light, colourful party lighting or a specific colour theme, the TUYA app gives you direct control over colour, brightness and effects from your phone.

Suitable for indoors and outdoors

The light string is IP65 rated, making it suitable for outdoor use in areas such as patios, gardens, balconies and event spaces. It also works well indoors, for example around a Christmas tree, along a wall or as decorative lighting for a living room or dining area. The controller is IP20 rated and should be placed in a protected location.

Fully programmable with the TUYA app

Create lighting that fits your routine or event. The TUYA app lets you dim the lights, change colours, set timers and build custom scenarios. This makes it easy to prepare the right lighting in advance, whether for daily use, a dinner, a party or seasonal decoration.

Music sync for dynamic light effects

With the built-in microphone, the light string can react to music and sound. The colours and effects can change with the rhythm, adding movement and atmosphere to parties, gatherings or relaxed evenings with music.

Compatible with Google Assistant and Amazon Alexa

Connect the light string to your smart home setup and control it with your voice. Compatibility with Google Assistant and Amazon Alexa makes it simple to turn the lights on or off, adjust settings and manage the atmosphere without using your phone.

Package includes

- Lite Bulb Moments Smart Light String Globe Cone
- Power supply
- User manual
